Project development phase

Dream Garden is a fictitious cocopeat company. This application helps Dream Garden brokers manage their properties and their customers. The application also helps prospective garden buyers find their dream Garden via a custom mobile app. Regardless of the industry you work in, this app demonstrates how to build rich and immersive user experiences with Lightning Components.

STEPS FOR CREATING USING CANVA

- ☐ First step is search “wordpress blog”.
- ☐ Create the blog using wordpress and copy the blog.
- ☐ Open blogger then paste the copy from wordpress.
- ☐ Published the blog in the blogger.
